

FCC Commissioners  
The Federal Communications Commission RE: Docket 04-435  
445 12th Street, SW  
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency. Cell phone use could also enable terrorists to coordinate a plan of action more effectively.

The idea sounds reasonable at first, however, what happens when terrorist in 1st class converse with terrorist in coach and synchronize their watches to take over a plane and then communicate with Osama on the ground and pursue the lie of the terrorist that they will be rewarded for giving their lives to eliminate a plane full of Infidels--let alone if they could claim taking the life of someone of the Jewish faith!! I truly urge you to reconsider since I do fly regularly and do not need a phone in the air--if I did I would use the one on the plane in the first place--PLEASE KEEP CELL PHONES ON THE OFF POSITION IN PLANES FOR THE SAFETY OF ALL WHO TRAVEL...MAY GOD BLESS YOU AND PLEASE LISTEN TO HIM BEFORE YOU MAKE SUCH AN ERROR IN JUDGEMENT. THANK YOU,

Please leave the current rules in effect.

Sincerely,

Rex Miller
